PRESS RELEASE:

LCS Constructors, Inc. Receives ABC's Prestigious STEP Diamond Award

PR Newswire

HOUSTON, July 13, 2011

HOUSTON, July 13, 2011 /PRNewswire/ -- LCS Constructors, Inc. (LCS) was recently selected by Associated Builders and Contractors, Inc. (ABC) to receive the STEP Diamond Award, a prestigious safety award presented to 26 companies throughout the nation for 2011. ABC will issue 516 various safety awards this year, and only a handful of companies will be honored with the Diamond Safety Award. LCS' place in this select group of companies positions LCS within the top 5% of the safest contractors in the United States.

ABC's STEP Diamond Award recipients represent companies with long-term records of exceptional safety performance, with EMRs at or below 0.700 (0.800 for companies with less than 100 employees) and average Incidence Rates at least 50% below construction industry averages. In addition, Diamond Award recipients are automatically eligible for the ABC National Safety Excellence Awards (NSEA) which is ABC's highest level of recognition in the field of safety training, as well as the Construction Users Round Table (CURT) Construction Industry Safety Excellence (CISE) award.

For years LCS has worked diligently to operate safe construction sites and has maintained excellent EMR ratings. As a result of these efforts, LCS celebrated two years, 2009 and 2010, without any recordable incidents. Congratulations to each LCS team member for their participation and support in achieving this distinguished award.

LCS is a team of general contractors and construction managers dedicated to the planning, design, construction and facility support of laboratories and technical facilities. For more information about LCS, please visit us online at www.lcslab.com.
