PRESS RELEASE:

LCS Constructors, Inc. Completes Nursing Simulation Center for Brandman University

PR Newswire

IRVINE, Calif., Dec. 2, 2011

IRVINE, Calif., Dec. 2, 2011 /PRNewswire/ -- LCS Constructors, Inc. (LCS) recently completed construction of the 14,000 square foot renovation project for Brandman University's Nursing Simulation Center. The project included the renovation of the North Wing of the second floor which now houses a new state-of-the-art nursing simulation laboratory as well as the reconstruction of adjacent office space.

This project involved the construction of hospital grade nursing simulation stations and related teaching areas to support Brandman's nursing curriculum in an active academic building with ongoing classes. Careful coordination was required with Brandman's facilities team to ensure that any MEP shutdowns/cutovers did not interfere with classes, and that interference with operations was minimized during the ingress/egress of construction personnel and equipment.

Since 1958, Brandman University, part of the Chapman University System, has served the unique needs of adults by providing students access to quality education consistent with the needs of their busy lives. Brandman's mission is to provide students with a dynamic education based on excellence and flexibility that creates lasting value and relevance for evolving careers.

Brandman University, part of the Chapman University System, offers undergraduate and graduate degrees, certificates, teaching credentials and extended education programs online and at campuses throughout California and Washington. For more information about Brandman University, please visit their website at <http://www.brandman.edu>.

LCS is a team of general contractors and construction managers dedicated to the planning, design, construction and facility support of laboratory and technical facilities. For more information about LCS, please visit us online at <http://www.lcslab.com>.
